

EVO Plasma Cut 45 PFC NON-HF 95-265V

The EVO Plasma Cut 45 PFC NON-HF 95-265V is a professional inverter plasma cutter designed for high-precision cutting of carbon steel up to 25mm. Engineered with NHF (non-HF) ignition, dual voltage input, and ClearVision technology, it offers outstanding safety, efficiency, and portability. Exclusively distributed in Norway by RAM SVEIS OG BEMANNING AS.

Technical Specifications

Brand	EVO
Model	Plasma Cut 45 PFC
Cutting Capacity	Up to 25mm (severance)
Weight	10kg
Welding Type	Plasma Cutting
Shielding Gas	Compressed Air
Polarity	DC
Welding Positions	All Positions
Voltage Input	95-265V AC, 50/60Hz
Ignition Type	Non-HF
Efficiency	86%
Power Factor	0.99
Protection Class	IP23S
Insulation Class	H
